Raman Zhukau

Full stack developer with Node Js, NestJS, Angular or React

+48579910378 | info@rit-m.com | Poland, Warsaw

PROFESSIONAL SUMMARY

Short summary of my experience:

An energetic software engineer with over 8 years of hands-on experience in software development and over 12 years in IT.

TECHNOLOGIES (Skill level from 1 - 5)

Front End	Angular(4), TypeScript(4), CSS3/HTML(4), Karma/Jasmine/Jest(4), JavaScript(4), React.js(3), NGRX(4), RXJS(4), REST(4), PrimeNG(4), AG Grid(4), Storybook
Back End	Node.js(4), Express(4), NestJS(4), MySQL(2), Mongo(2), AWS DynamoDB(3)
Devops	Docker(3), TeamCity(3), Jenkins(2), Concourse CI(3), AWS Lambda(3), AWS CloudFormation(3), Nginx(2), Apache(2), Grafana(2), InfluxDB(2), Storybook
Project management	UML diagrams(3), JIRA(3), Confluence(3), Github(3), Gitlab(3), CJM(3), Advertising management systems(3)

EXPERIENCE

Work Experience:

Exadel	01/05/2022 - Ongoing
Intellias	01/09/2021 – 01/05/2023
Glorium Technologies	01/10/2020 – 01/07/2021
Specific-group.com	01/09/2017 – 01/09/2020
Individual Entrepreneur R.A.Zhukov (B2B)	02/09/2012 – (Ongoing)

Work period: 01/05/2022 – Ongoing
Organization: Exadel
Position: Front-end Developer
My technologic responsibilities: Agile Methodology, JavaScript; Angular 12+, Jetbrains TeamCity; Jest; Jest+Puppeter;
Team technologies: JavaScript, TeamCity, GitHub, Angular15, Node.js, .Net, Azure
Big outsource and outstaff company.
Responsibilities and success:
- Architecting Angular project structures for enhanced reliability and scalability;
- Executing a seamless update from Angular.js to Angular while ensuring ongoing project support in Angular.js, minimizing potential risks during the transition;
- Configuring Azure pipelines to facilitate dependable deployment and continuous integration workflows;.

- Introducing and implementing A/B testing solutions to refine and optimize user experience features;
- Collaborating closely with DevOps teams to craft essential deployment tools;
- Maintaining comprehensive code documentation, ensuring the project is understandable and easy to maintain;
- Conducting end-to-end (e2e) and unit-level testing leveraging Jest and Jest+puppeteer, ensuring top-notch product quality.

Work period: 01/09/2021 – 01/05/2022
Organization: Intellias
Position: Front-end Developer
My technologic responsibilities: Jenkins, JavaScript; Angular, NGRX, RXJS, HTML5 / CSS3, Asure, Agile, Support, Bug fixing;
Team technologies: Java, Jenkins, Angular10+, Android, IOS, GIS;

Intellias is a global technology partner that enables the sustained success of top-tier organizations and Fortune 500 companies. By delivering value to our partners and clients with the power of technology, we inspire confidence that their digital initiatives will succeed. Project Domen is a travel tourism website.

Responsibilities and success:
- Has created a tourism web application for Neom company which can work with GIS and create many forms.
- Developing new features and bugfix

Developing the project architecture in Angular, notably enhancing the efficiency of our development team;
Fostering seamless communication among frontend, DevOps, backend, testing, and product owner teams, resulting in a streamlined and highly effective development process;
Managing the frontend team, conducting comprehensive code reviews and optimizing entity workflows through ngrx-data.
Collaborating closely with the DevOps team, playing a pivotal role in implementing core product deployment tools, ensuring the project's reliability.
Environment: JavaScript, Java, Jenkins, Angular10+, Android, IOS, GIS;

Work period: 01/10/2020 – 01/07/2021
Organization: Glorium Technologies
Position: Mid Front-end Developer
My technologic responsibilities: JavaScript; Angular8+, NGRX, RXJS, HTML5 / CSS3, Asure, Agile, Support, Bug fixing;
Team technologies: Java;
Digital solutions since 2010, helping startups and SMBs come out on top in the real estate and healthcare industries. REAL ESTATE SOLUTIONS & SOFTWARE DEVELOPMENT.
Responsibilities and success:
- TypeScript bug fixing and front-end support.
- Developing new features for applications has increased also.

Managing a distinct section of the application, including the development of new features alongside support and bug fixing;
Collaborating closely with the backend team, enabling the successful implementation of crucial tools for managing entities and the REST API;
Utilizing algorithms and arrow functions to elevate code efficiency and readability.
Environment: Java, JavaScript, Angular 8+, NGRX, RXJS, HTML5/CSS3

Work period: 01/01/2018 – 01/09/2020
Organization: Specific-group.com
Position: Front-end Developer
My technologic responsibilities: JavaScript; React, Redux, HTML5 / CSS3, Karma/Jasmine
Team technologies: JavaScript; React, Redux, HTML5 / CSS3, Asure, NodeJs, C#;

Digital-Finance-as-a-Service (DFaaS) offering. Additiv's new Digital Finance Software-as-a-Service. Improving the quality of the code. Direct contribution to additiv AG desktop application startup rate improvement by 52% due to the correct load of the team and the React + Redux + Saga + TypeScript instruments.

Responsibilities and success:
- For a year and a half, I took part in the development of 4 web applications for 3 large companies in the field of insurance and finance.
- In one of three projects, I proved for the team the effectiveness of React + Redux + TypeScript tools and injected them at the stage of preparatory work. Efficiency and quality of the code has increased.
- Developing new desktop applications for the financial and insurance market sectors.

Environment: JavaScript; Angular, React, Redux, HTML5 / CSS3, Asure, NodeJs, C#

Work period: 01/09/2017 - 01/01/2019
Organization: Specific-group.com
Position: Front-end Developer
<u>My technologic responsibilities</u>: JavaScript; Angular2, Angular7, NGRX, RXJS, Swagger, HTML5 / CSS3,
<u>Team technologies</u>: JavaScript; Angular7, NgRx,Swagger, HTML5 / CSS3, Jenkins, Java, Maven;

Association of Austrian Insurance Brokers. IGVM Austria. Work on the application is still underway.
Responsibilities and success:
- I took the project from other developers of version Angular 2 and completed a smooth transition to version Angular7.
- After a short time I was engaged in supporting the application and finalizing old modules

Environment: JavaScript; Angular, React, Redux, HTML5 / CSS3, Asure, NodeJs, C#

Work period: 02/09/2012 – Ongoing
Organization: Individual Entrepreneur R.A.Zhukov
Position: Front-end Developer
All Technologies: Angular/TYPESCRIPT, Mysql, JavaScript, HTML, CSS3, Tailwind, Material, Ant, Nodejs, Nodejs, Express, NestJS, Mysql, CSS, NGRX, React, Nginx/Apache, Jest/Karma/Jasmine, REST, Docker, TeamCity, Concourse, Jenkins, AWS Lambda, AWS DynamoDB, AWS CloudFormation, Storybook

EDUCATION

- Mogilev State University of Foodstuffs - 2012.
- Specialization - Economy and food industry
- Speciality - Engineer-economist

Languages

- English (intermediate)
- Russian (native)
- Belarusian (intermediate)

Addition information

I have combined all answers from all dialogs with recruiters in one page.
Hope it helps you find all the info.

- ★ **Notice period - 1 week.**
- ★ **Is it possible to work under a B2B contract? - Yes**
- ★ Do you work remotely? - Yes.
- ★ Your location? - Poland, Warszawa.
- ★ What stack would you like to work with? - Angular, TypeScript, React.
- ★ What are your expectations from a new job? - New knowledge.
- ★ How is your spoken English? - Correspondence and small talk.
- ★ Is there a practice of communicating about work in English? - there is.
- ★ Why are you considering proposals? - Communication experience and search for new horizons
- ★ Do you work as a freelancer or for yourself? - I am an individual entrepreneur, but also consider other proposals.
- ★ What is your commercial experience with Angular, React, Vue? ~ 6 + 2 + 0.5 years.
- ★ Projects that are running, work for themselves? - Design, layout, Advertising, Programming
- ★ What stack do you work with on previous work? - Angular, Magento, JS, React, Vue
- ★ Have you worked with the database? - Yes. experience is low
- ★ What was the main reason for you to leave / look for new professional opportunities? - Growth and development.
- ★ What are your strong technologies? - Angular, JavaScript

Stack Matrix

Stack	Experience, years	Level	Last time used
Angular/TYPESCRIPT	7+	Advanced	Current time
Mysql	1	Novice	2020.01
JavaScript, Nodejs	7	Intermediate	Current time
Nodejs, Express, NestJS, Mysql	2	Intermediate	Current time
CSS	10	Advanced	Current time
NGRX	10	Advanced	Current time
React	2	Intermediate	Current time
Nginx/Apache	2	Novice	2022.10
Jest/Karma/Jasmine /Storybook	3	Intermediate	Current time
REST	5	Intermediate	Current time
Docker	5	Intermediate	Current time
TeamCity, Concourse, Jenkins	4	Intermediate	Current time
AWS Lambda, AWS DynamoDB	1	Intermediate	2024.01
AWS CloudFormation	2	Intermediate	Current time
